Dear Dimock Community,

We are so grateful for the tremendous financial support received for our [Dimock Center Emergency Fund](#). Your generosity has helped to meet the critical needs of our patients and families during this challenging time.

Community Health Centers play a pivotal role in reducing health disparities and promoting equity. The current pandemic dramatically underscores the vital role Dimock plays in the community now and always.

We are now testing more than 50 people each day for the COVID-19 virus and anticipate this number will continue to rise. We have also launched a contact tracing program to connect with COVID-19 positive patients and their contacts to provide testing and resources they may need. As part of this project, Dimock was selected as the first health center in the state to offer rapid access testing for contacts we find, helping us get results to people within 24 hours. This is a critical initiative, which will help to reduce the number of cases in the future, and we are proud to be on the frontlines of this work.

Additionally, we have created a COVID-19 positive treatment unit for people in recovery from substance use disorder to ensure they receive uninterrupted care. This innovative program is one of only two units in the state. And we have also distributed over 3,000 meals, in partnership with Harvard Pilgrim Healthcare Foundation, to our Early Education families and other community members.

You make this work possible. We extend our heartfelt thanks to the institutional donors listed below, and the many [individual supporters](#) including members of the Dimock Boards and President's Council.

If you have not already donated, please consider a [gift to the Dimock](#)

Center Emergency Fund today. Thank you for your support.
